

Sprint Review 02

1. What went well
 - Completed use-case specification
 - Finish Registration and Login UI
 - Sign in via Facebook
 - Create renter and host profile setting
 - Fixing the last PA documents
2. What went wrong
 - Take too much time to do the paperwork
 - Do not have enough time to complete all the listed tasks
 - Wishlist
 - Notification
 - Feature setting
 - Do not have enough budget for workspace
 - Fixing bugs in coding takes too much time
3. What problems and what caused the problems
 - Too many midterm examinations: We do not have enough time for the project due to lack of time
 - Coding each assignment takes more time than expected
4. What can be done differently in the next sprint to improve the project
 - Arrange time suitably for each part of the project and term courses
5. What lessons we could learn
 - Practice makes perfect
